Cart Policy

Carts are to exit at the new cart posts, using cart paths near tees and around greens and following directional signage. Driving over mounding throughout the course is prohibited. Carts should never be closer than 30 yards from a green or inside the posts

We are going to address the ongoing issue of players non compliance of gas carts being too close to the greens, behind greens and players not adhering to the cart rules of the day which include path only and 90* rule. If you are one who already respects these simple golf cart etiquette rules we Thank You for your respect of your course.

Junior members must possess a valid driving license to rent a cart

Read and obey the rules of operating carts posted for that day of play

Pace of Play

The traditional four hour round is the standard at Waubeeka. Please make every effort to see that your group finishes on time. Faster groups should be allowed to play through slower groups

Ball Marks Fix and repair properly. There is signage on the first tee for instruction on repair

Bunkers

Always rake your tracks after playing out of the bunkers so the players behind you don't find their ball in your footprint or divot.

Divot Repair

There are divot mix boxes on every par 3 tee and also on our golf carts, please fill your tee box divots and also replace your fairway and rough divots as well or fill with the mix provided on carts, Thank You!
